

Roque Othacehe

Fullstack Developer | Next.js & Spring Boot

+54 223 6680996 | roqueotha04@gmail.com | [Link to portfolio](#)

Mar del Plata, Argentina

PROFILE

Fullstack developer with experience in complete projects using **Next.js, Spring Boot, and SQL**, integrating **AI agents (Claude Code/MCP)** applying **SOLID principles and Clean Code**. I combine real-world project experience with my **teaching role at UTN**, where I train developers in **backend architectures and end-to-end development**.

PROFESSIONAL EXPERIENCE

Fullstack Developer

02 2026 – Current

Estudio Ve | [estudiove.com](#)

- Development of web applications with **Next.js**, implementing **fullstack architectures** from **SQL databases** to **responsive user interfaces**.
- **AI integration** using Claude Code and development of **custom skills** for workflow automation.
- Implementation of **REST APIs and end-to-end project management** from requirements gathering to production deployment.

Programming Instructor

02 2024 – Current

Universidad Tecnológica Nacional

- Programming Instructor at the Universidad Tecnológica Nacional, focused on backend development.
- Experience with groups of **up to 100 students** in subjects such as Programming III (**Spring Boot**), Programming IV (**Angular**), Databases (**MySQL**), and Systems Methodology (**Scrum and Agile**).

PROJECTS

SuperHeroGame | Spring Boot, Angular, PostgreSQL | [Link to project](#)

- **Performance Optimization:** Reduced latency **by 60%** (from 140ms to 60ms) through backend redesign.
- **Modernization:** Complete overhaul of the Professional Practice (UTN), migrating the logic to a robust architecture in **Java 17**.

Book Loan System | Spring Security (RBAC), JUnit 5, MySQL | [Link to repository](#)

- **REST API:** Backend for managing book inventories and loans, with security architecture based on **RBAC (Role-Based Access Control)** using **Spring Security and JWT**.
- **Quality & Testing:** Code coverage through unit and integration tests with **JUnit 5 and Mockito**.

EDUCATION

Associate Degree in Programming

02 2022 - 02 2024

Universidad Tecnológica Nacional.

First Certificate in English

Cambridge University english test | B2 level

SKILLS

Backend | Maven, Spring Boot, JPA/Hibernate, Spring Security, JWT, JUnit, Spring Cloud.

Databases | MySQL, PostgreSQL, SQL Server.

Frontend | Next.js, React, Angular.

Tools | Git, Docker, RabbitMQ, Claude Code (MCP/Skills), Postman, Scrum/Agile.

Languages | Java, SQL, Python, TypeScript, JavaScript, C.
